

B. Request for Proposal (RFP)

- **Funding Priorities adopted December 7, 2011 for FY2014**
- **Application Process**

The LCCMR identifies funding priorities based on its Six Year Strategic Plan and publishes an Environment and Natural Resources Trust Fund Request for Proposals (RFP). A summary of the 2012-2013 RFP (for FY 2014) funding priorities, project criteria, and background information is included here.

2012-2013 RFP Funding Priorities (for FY 2014)

Projects were sought that provide multiple ecological and other public benefits, are consistent with the LCCMR Six-Year Strategic Plan for the Environment and Natural Resources Trust Fund (http://www.lccmr.leg.mn/StrategicPlan/2009/LCCMR_Strategic_Plan.pdf), and address at least one of the adopted funding priorities detailed below. Funding priorities were directly from Minnesota Statute 116P.08, Subd. 1, which pertains to allowable expenditures for the Environment and Natural Resources Trust Fund. Projects should be innovative and must accelerate or supplement, not supplant, existing efforts.

Proposals must address one of the six funding priorities detailed below; proposals may respond to more than one priority.

1. The Reinvest in Minnesota program as provided in M.S. 84.95, Subd. 2.
2. Research that contributes to increasing the effectiveness of protecting or managing the state's environment or natural resources.
3. Collection and analysis of information that assists in developing the state's environmental and natural resources policies.
4. Enhancement of public education, awareness, and understanding necessary for the protection, conservation, restoration, and enhancement of air, land, water, forests, fish, wildlife, and other natural resources.
5. Capital projects for the preservation and protection of unique natural resources.
6. Activities that preserve or enhance fish, wildlife, land, air, water, and other natural resources that otherwise may be substantially impaired or destroyed in any area of the state.

NOTE: Per M.S. 116P.02, Subd. 5: "Natural resources' includes the outdoor recreation system under section 86A.04 [i.e., state recreation system] and regional recreation open space systems as defined under section 473.351, subdivision 1 [i.e., metropolitan regional park system]."

UPDATE (02/15/12): On February 10, 2012, the LCCMR took action to provide additional guidance to applicants seeking funds through the RFP. In considering proposals received in response to the RFP and making funding recommendations to the 2013 legislature, the LCCMR intends to place a strong emphasis on invasive species, particularly Asian carp species and other aquatic invasive species. LCCMR will allocate a significant portion of the funds available for efforts that will effectively assist in the prevention, reduction, or control of invasive species within the state. This additional guidance does not change the funding priorities previously listed in the RFP issued in December and is only intended to inform potential proposers about one area of planned emphasis.
